

SPECIFICATION SHEET

Name of Product	:	RUBBER BUBBLE RUNNER WITH YELLOW BORDER	
Specification	:	100% Rubber	
Manufacturing Method	:	Rubber Molding in heavy hydraulic press under high temperature	
Colour	:	Black	
Type	:	Solid with Bubbles	
Compound	:	NR	
Hardness (Shore A)	:	55° +/- 5°	
Density (SG)	:	1.25	
Min. Temperature	:	-30	
Elongations (min)	:	250%	
Tensile Strength MPa	:	4	
Properties	:	anti-slip	
Thickness	:	15mm	
Sizes	:	0.91m x 9.0m x 15mm	
Tolerance Limit	:	+/- 10% on general values	
Applications	:	Best for pathways, ware houses, machine rooms, ramps, etc	
Features	:	High ground stabilization Good anti-fatigue characteristics, High impact resistance, Anti-slip finish, Low Maintenance.	
Packing	:	Bale Packing or Palletized	
Storage Instructions	:	Keep well wrapped in a dry place to avoid fungal infections, Store with dry silica gel, if infected with Fungus clean with Silicon.
