

We hereby declare that the hose

**913038.....00      ARMORVINPRESS PU**

is made on plasticized transparent PVC with a PU under layer; reinforced with an embedded galvanized steel spiral.

Smooth inner and outer surfaces.

Operating temperature -20°C to + 90°C.

Avoid contact of food with the heads and outer surface of the tube.

The hoses must be sterilised prior to use.

#### **In compliance**

##### **with the following US American regulations:**

- code of Federal Regulation FDA (Food and Drugs Administration) Title 21 part. § 177.2600 (Rubber articles intended for repeated use) *sect.* "e" (aqueous food) and *sect.* "f" (fatty foods)

The items mentioned above were manufactured exclusively with substances (monomers, pigments and additives) indicated in the positive lists of the above legislation.

The simulant and test conditions are chosen in compliance with CFR 21 § 177.2600 *sect.* "e" (aqueous food) and *sect.* "f" (fatty foods)

This declaration will be updated in the event of changes in formulation of the material or if the legislative references are modified and updated so as to require a new check for compliance.
